THE BRITISH COLUMBIAN.

No. 86, Vol. 5. NEW WESTMINSTER, WEDNESDAY, SEPTEMBER 13, 1865. Price 6d. or 12 cts

This JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, TUESDAY, SEP. 13, 1865.

English News.

As far as we know the result of the elections in England the Liberal party has in the new House of Commons a majority of 27. When we know the issue of the elections in Scotland and Ireland and in the rest of England, we shall probably find that majority in some degree larger; but whether Palmerston will have a working majority in the next Parliament is a dubious question. So many Radicals, who think that any change is a change for the better, have been returned, that it is highly probable that on the first important division many of them will follow Mr. Disraeli into the lobby, in the hope that a Conservative Ministry may be more willing to pass some measure of Reform than the Whig Government has been. On the other hand, however, the great personal popularity of Palmerston, his unquestioned tact in swaying the House of Commons, and his unparalleled adroitness in turning every event, even of a seeming untoward character, in his own favor may ensure him in the next Parliament the stable position he held in the last. In one important respect his Cabinet will be weaker than before. By a majority of fourteen the "Common's House of Parliament" have passed a vote—we think the calm verdict of history will write it down a harsh and unjustifiable vote—of censure on the Lord Chancellor. The sarcastic eloquence under which the Bishops have so often writhed, the capacity for business and the unwearied assiduity of the greatest Law Reformer of modern times has been lost to the Whig Ministry. Lord Westbury has resigned, and his vacant place is not filled—but occupied by Lord Cranworth, a respectable mediocrity, and former Chancellor.—The Prince of Wales has been playing the part of an amateur fireman, at a fire wich broke out in his own palace—Marlborough House. Although the fire was not likely to be dangerous, the energy of and presence of mind displayed by the Prince—working hard with his coat off, passing buckets of water, and directing his servants—augurs well for the future of "Our King to be. The baptism of his son took place on the 7th July. The boy is called George Frederick Ernest Albert, and the Queen of Denmark, King of Hanover and several other crowned and coronetted heads are godfathers and godmothers. Prince George of Wales is now an established fact and his "broughtens up" will probably be regarded with interest. A fiendish murder has been committed at Glasgow by a medical man, a Dr. Pritchard. He murdered his mother-in-law out of gratitude, she, poor woman, having lent him £500. He removed his wife from this world because he was under the impression that his servant-maid would suit him better. A jury of his countrymen found him guilty by a unanimous verdict, and the wretch has since confessed, and has been hanged by the neck as he deserved.—The annual rifle meeting was being held at Wimbledon, but we do not yet know with what conclusion. The great race for the Amateur Championship of the Thames came off on the 17th July, and was won by C. E. Lawes, of Trin. Col., Cambridge, after one of the finest races ever rowed. Woodgate and Cecil were the vanquished candidates for the "Blue Ribbon of the Thames."

A MATURE MARRIAGE, AND PALMERSTON TO LOOK ON.—On Thursday morning, the Rev. R. G. Baker, M. A., Vicar of Fulham, and Prebendary of St. Paul's Cathedral, was married in the presence of Lord Palmerston and a host of friends, at All Saints' Church, to Miss Sullivan, daughter of the Right Hon. Lawrence Sullivan, P. C. Miss Sullivan, who is a niece of Lord Palmerston, is 40 years of age, while the bridegroom has attained to the mature age of 77. The ceremony was performed by the Bishop of London.—*English Paper.*

A QUEER STORY.—"A curious incident in Paris high life," says the *Epoque*," is about to become the subject of a suit for a divorce before the first Chamber of the Tribunal of the Seine. A young husband belonging to one of the great families of France, in order to conceal his nightly absence from home, formed the idea of placing in his bed a figure with a wax head made to resemble him. The artifice succeeded for a time, but one night the lady, venturing to enter her husband's room and approach the bed, discovered the trick. Hence the suit for a judicial separation."

PROSPECTUS OF THE

BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - - - - $100,000,

IN 2000 SHARES OF $50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. The remaining 200 A shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of $2 per share at the time of subscription, and of calls of $1 per share, per month, until $15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;

Hon. J. A. R. HOMER, M.L.C. — W. CLARKSON, Esq.,
JOHN RONSON, Esq., — GEORGE DIETZ, Esq.,
SEWELL P. MOODY, Esq., — JAMES VAN BRAMER, Esq.,
JOSIAS C. HUGHES, Esq., — W. J. ARMSTRONG, Esq.,

JOHN PICKAVANT CRANFORD, Esq.

AUDITOR:

THOMAS MCMICKING, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on Coal Harbor, Burrard Inlet, and the British Columbian Government has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be adequate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a $50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practical coal miner of many years' experience both in Scotland and Vancouver Island, to prospect and examine the locality of English Bay and Burrard Inlet. The annexed is his report:—

"*To the Board of Directors of the British Columbia Coal Mining Company, Limited.*

GENTLEMEN,—After a careful examination of several square miles of the country lying to the southward of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note, still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt (judging from the very trifling angle of dip and its freedom from faults and other dislocations of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out, I am, Gentlemen,

Your obedient servant,

JOHN DICK.

THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sleps. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diptheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any overgorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Headache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fevers of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symptoms
Colics	Indigestion	Tic Douloureux
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. de7

NEW WESTMINSTER, WEDNESDAY, SEP. 13, 1865.

The new Hope Silver Lead.

We alluded a short time ago to the discovery of a new silver lead in the vicinity of Hope. We have now before us the report of Mr. Biesta, of Spuzzum, the gentleman in charge of the party sent out by Mr. W. H. Sutton, of Yale & Hope. The report is somewhat lengthy, but well written and bearing unmistakable marks of scientific skill and practical experience. We have learned that Mr. Biesta is a geologist and practical assayer of proved integrity and skill. From this report, for which we have not room in its entirety, it appears that the lead is up a valley at the south-eastern slope of "Hope Mountain." In a deep crevice between two rocky peaks was discovered two silver veins, one of which is from 4 to 6 inches in thickness and the other is from ten to twelve inches thick. Mr. Biesta took specimens from both of these veins, that from the lesser one assaying $71 to the ton. The report concludes by recommending that a good faithful man with an Indian attendant should be employed for two or three weeks "to dig on the veins at a depth of six or eight feet in order the better to ascertain their quality, and to be able to make a thorough assay of them, as also to prospect the adjacent hills." The exploration has so far, we believe, been carried on at the expense of Mr. Sutton, and it now remains for an effort on a broader and more public basis to decide the value of the discovery. Mr. Sutton has, to our own knowledge, expendeded considerable means in a quiet and unostentatious way in this and kindred enterprises; but it is hardly right that one man should be allowed to bear the sole expense of preliminary explorations which must, in the event of a successful issue, benefit the general public. It is certainly matter of regret that there should be such a lack of capital and, perhaps we might say, enterprise to prospect a country which the best informed believe to abound in the precious metals and other valuable minerals. Before dismissing this subject we may state that the rich silver lead of Cherry Creek is attracting considerable attention. In addition to the original company, whose shares are all in the hands of fifteen gentlemen, and cannot be bought, a strong Company has recently been organized and will shortly commence active operations. A few such organizations in active operation will introduce a new era in the history of British Columbia, and contribute more towards its permanent benefit than half our gold-mining.

The Ruins.

The late fire at Holy Trinity Church, on the evening of the 5th inst., has left a mass of charred and blackened ruins where once stood an edifice in whose completeness and beauty the congregation took a pardonable pride. The external shell, burnt through in places, still remains. It is only on entering the arch, where once was an iron-studded door, that a full view of the utter destruction of the building is apparent. The fire seems to have entered the organ chapel, through the window over the wood closet, and thence to have swept in full volume across the chancel roof to the Governor's Pew, in the opposite chapel, thence to have rushed along the inside of the roof and the upper part of the sides of the church, until it suddenly burst forth in uncontrolled violence at both ends of the building at once, the flames rising 20 feet above the roof, until mastered by the desperate exertions of the Hyack Engine Company and the citizens assembled. The whole of the chancel, with its handsome communion table, service and cloth, the elaborate reredos, the Bishop's and Archdeacon's chairs, the finely traced screen, the organ, its fittings and music, the vestry, the choir, the lectern and pulpit, (made of the various woods of the country,)—most of these offerings from members of the congregation, all fell a prey to the devouring element. So that, in short, the whole of the vestry, chancel and roof have been irremediably destroyed, while all the rest of the inside of the church, and its contents, with the exception of the floor and a few benches, have been so burnt, blackened and charred as to be utterly useless to the congregation for any practical purpose. It is sad to see so many a hard-earned dollar so quickly and utterly gone. A property variously estimated at $8,000, $9,000, and by some even $10,000, the hardly-won savings of several years, destroyed in half an hour. The loss falls especially heavy on a body whose resources have been so recently and severely tried by their spirited and successful effort to erect a fitting tower for the reception of the magnificent peal of bells presented to them by the great benefactress of the Anglican Church in the colony—Miss Burdett Coutts. The congregation have our hearty sympathy in their misfortune, and we can only hope that the same energetic spirit which has heretofore given success to their exertions may still prompt them to further effort, and that a newer and still finer edifice may ultimately arise to replace the building they have lost; one, too, more in harmony with the noble bell tower, now in course of completion.

A CARD.

THE UNDERSIGNED, having re-opened his former business upon Cash principles, respectfully solicits the patronage of his former customers on the above terms, which they will find to their interest and advantage, being more economical, and, above all, most satisfactory to avoid dissatisfaction to former credit and other patrons. He would particularly request that credit be asked on no terms whatever, saving the necessity of refusal, which often proves a delicate work to the buyer as well as to the seller. Hoping none may take offence, the above rule must be strictly complied with.

THIS JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. SIDNEY RENNELL, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, SEP. 13, 1865.

BY MAGNETIC TELEGRAPH!

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

NEW YORK, Sept. 6.—The *Times'* Brownsville correspondent, under date Aug. 25th., says, Matamoras *Monitor*, in giving the proceedings of the week, announces the arrival of Beauregard at Vera Cruz. The Liberals on the Border are quiet, but receiving large reinforcements for future operations. A force of Imperialists with a waggon train *en route* from Monterey to Matamoras, was met by 80 Liberal scouts, attacked, and driven back on Monterey. A colonel, late of the Confederate army, was killed. Reinforcements from Matamoras were met by Cortinas' guerrillas, and driven back. The troops mustered out under the late order of Sheridan have nearly all gone home, but a large force remains in Texas. A grand ball was given on the night of August 4th in honor of Maximillian's Minister. It was attended by Gen. Steele and other U. S. Officers. At dinner on a previous occasion Steele toasted the Empire!

NEW YORK, Sept. 6.—The *Herald's* Richmond correspondent says, Bishop Lay, of N. C., who was arrested some time since on supposition of having evidence of value to the Government, has been discharged. He passed through Richmond on his way home. Extra-Billy Smith is passing his time quietly on his confiscated estate at Warrenton.

NEW YORK, Sept. 6.—The *Herald's* Fortress Monroe correspondence says, the privilege of writing to his wife has been granted Jeff. Davis.

The *Herald's* Beaufort correspondence, Sept. 2nd, says the Haytien despatch str. *Geffrard*, put into this port for coal and water yesterday. The Capt. has despatches asking of the President aid to quell the rebellion in Hayti. Small-pox and yellow fever are showing themselves there on board some merchant vessels; two of them are infected with billious and malarious fevers.

ALBANY, N. Y., Sept. 6.—The Democratic State Convention assembled here this noon. Chas. H. Winfield was chosen President, *pro tem* and proceeded to address the convention, the following was *Resolved*, That the organization known as the "Tammany Hall Organization" have been regularly elected as delegates to this Convention."

FORTRESS MONROE, Sept. 4.—Jeff. Davis has so far recovered as to be able to resume his accustomed walks. The brig *Nellie*, has arrived at Norfolk, from Turks Island with a cargo of salt. This is the first arrival of the kind since the war. Henry R. Wise arrived here to-day from the extreme of South Virginia.

ST. LOUIS, Sept. 6.—Pierre Chontean, Jr., for many years the head of the American Fur Company, and one of the first settlers and best citizens of the city, died to-day.

LOUISVILLE, Sept. 6.—The Chattanooga *Gazette* says, a difficulty occurred yesterday between W. S. Hall, of the Circuit Court, at Knoxville, and a young man named Baker, late of the rebel army, which resulted in the death of Hall. Baker was admitted to bail, but the citizens got him from the Sheriff and hung him in the streets of Chattanooga.

NEW YORK, Sept. 6.—The *Herald* says, Prof. Lowe, and the gentleman who accompanied him in his balloon ascension on Monday, descended safely near the Hackensack, N. Y., the same evening.

NEW YORK, Sept. 6.—Gen. Lee has accepted the Presidency of Washington College Academy in a letter in which he expresses the following sentiments: "That it is the duty of every citizen in the present condition of the country to do all in his power to aid in restoring peace and harmony, and in no way to oppose the policy of the State or general government, directed to that object, and that it is particularly incumbent on those charged with the instruction of the young to set an example of submission to authority."

SECOND DISPATCH.

SAN FRANCISCO, Sept. 8.—Forbes, Brothers, & Co., doing business in Liverpool, yesterday brought through their agents in this city, libelled, the ship *Portlaw*, to recover $6,433 with $1,000 damages, the value of 125 casks of ale shipped from Liverpool on said ship. The libel sets forth that through bad stowage and carelessness, said ale was damaged to such an extent as to render it unmercantile. The ship was released from the custody of the Marshall this morning on filing the usual bond. To-morrow will be the 15th anniversary of the admission of California into the union. The celebration of the day by the Pioneers will be held at the Metropolitan Theatre instead of at Tucker's Academy as before announced. A procession will be formed at Pioneer Hall at 11½ o'clock, and after marching through Montgomery street to Market street, will stop at theatre, where the Rev. Mr. Stebbins will deliver an oration.

A meeting of the merchants will be held in the Merchants Exchange to consider the propriety of purchasing a building suitable for their wants.

MARKETS.

The mining stock market is decidedly better to-day.

Greenbacks, dull.

Coffee, is again higher, sales at 29c.

Hams, eastern brine, sold at full prices.

Liquors, quoted firm, sales 20 bbls., low proof, eastern whiskey at advanced rate, and other liquors in proportion.

Lard oil, sells at $2.50.

Syrup, sells at 70c. cash.

Sugar, 400 half bbls. medium and good, No. 1 Hawaiian 11 @ 11½.

No. 2, China rice, $5.50 per 100 lb.

Tea, 24 boxes gunpowder, 32½c. per lb.

Flour, brisk, unchanged; superfine $5.25, extra, $5.50.

Wheat, firm, unchanged.

Barley, in good demand, about 90½c., and 500 sks. at 92½c.

Potatoes, in round lots 70c. @ 80c.

Hay, 200 bales common, sold at $10 per ton. At Sidney, June 23, flour was quoted £20 per ton, with prospect of continued high prices.

Cleared, ship *Nouvelle Antoinette*, Port Angelos. Sailed, str. *Orizaba*, Puget Sound.

THIRD DISPATCH.

NEW YORK, Sept. 7.—The *Herald's* special dispatch says the character of the evidence now being adduced in the Wirtz trial in support of the prosecution is said to be weighing heavily on the mind of accused, and has filled him with the most fearful apprehensions as to the decision of the Commission hearing the case. Some people who are watching the demeanor of the prisoner recently give the opinion that throughout he seems to suspect his doom; he will not survive another month. Forty more witnesses have been subpœned, and examined. Brevet-Maj-Gen. J. C. Fuller has resigned his commission in the army and will in a few days take his departure for his home in California.

NEW YORK, Sept. 7.—The *Commercial's* special correspondent says the President has permitted Henry S. Foote to return to Tennessee, and he passed through Cincinnatti, a few nights since, *en route* for his home in Nashville, on condition that he would not interfere in politics.

The *Post's* special correspondent says the President declines to release Mallony, Rebel Secretary to the Navy, but gives his family permission to visit him.

NEW YORK, Sept. 7.—The Cincinnatti *Commercial* has a dispatch dated Jackson, Miss., Sept. 4th, which says Gen. Slocum has issued an order by direction of President, enjoining on his officers not to interfere with the organization of the State Militia ordered by Gov. Sharkey. The explanation of the this news is the fact that the Government is looking to gradual suppression of the Federal troops by the State Militia in order to diminish the Government expense.

NEW YORK, Sept. 7.—Intelligence from Mexico confirms reports of disasters to the Liberals. The strategetical combinations of Imperialists seem to exclude the hope of a prolonged resistance by Juarez. The retreat of the Mexicans from Chihuahua is confirmed. It is not probable that the Liberals can sustain their position or persist in resistance without aid, which cannot be looked for.

The French are receiving reinforcements, and are now in a better position than ever. The President will not interfere with the action of the Southern Bishops. They may unite with the Northern Church or not as they please. In reply to the Radicals he quoted the constitution relevant to the subject.

WASHINGTON, Sept. 7.—The Navy Department dispatched from the Washington navy-yard today a gunboat to proceed *via* St. Lawrence to Detroit. This action of the Government is deemed important as relating to the long existing treaty stipulations restricting naval operations in frontier waters. A letter addressed by J. M. Mason, Rebel Agent in England, to the London *Times*, dated August 20th, says "He sent orders long since to the pirate *Shenandoah* to cease hostility, go into port, disarm, and discharge her crew. The orders were not through channels which would insure prompt delivery; by this time, he presumed his cruise was about ended.

SAN FRANCISCO, Sept. 9.—The Pacific Mail Steamship *Commodore*, arrived from Panama this afternoon bringing the mails and passengers that left New York, August 16th. The sentence of Byrnes was postponed until next Saturday. U. S. Counsel not having had sufficient time to prepare a motion for a new trial. Coal oil, and coffee, preserved fruits, distilled spirits, butter, sugar, and soap, have maintained full prices during last week. Telegraph messages dated Sept. 2nd, New York, quote cotton goods very firm and advancing.

Later from Kootenay.

Mr. Wm. Read arrived on Monday evening from Kootenay—eleven days' travelling time—with a Government Express. The news is unimportant. There were between 500 and 600 miners on Wild Horse Creek. The claims were paying well, and work for all at $7 to $8 a day. The market was well supplied. Flour retailing at 23c. to 24c., bacon 75c., beef 25c. to 30c., sugar 75c., and other articles in proportion. There had been a great stampede to reported rich diggings in the Black Feet country, where there are believed to be about 50,000 people. It was expected that many would soon find their way to Kootenay when the excitement had subsided. A large number of Chinamen are engaged in mining on the Pende O'Reille River, which flows into the Columbia about 25 miles from Fort Sheppard. They are believed to be doing well, and are busy building cabins to winter in. Mr. Dewdney is making good progress with the trail, which will probably be completed by the 1st proximo. He has 50 white men and 30 Chinamen at work. When the trail is finished the journey will be made with ease from Hope to Wild Horse Creek in ten days. Mr. Read met Judge Begbie and party at the Divide, about 30 miles on this side of Kootenay Lakes, *en route* for the diggings.

The following items, prepared by a gentleman at Fort Sheppard, have been kindly placed at our disposal by Mr. Read:

"Rags and Scraps for Mr. Read,
Fort Sheppard, Sept. 2.

FRENCH CREEK.—A canoe with 8 men arrived on the 28th ult. They had bottomed without success, and do not think well of the creek. Some parties were still preparing to flume the bed of the stream, but were not very sanguine of success. A company of half-breeds had taken out $70—nothing but "flour straight" to eat. One man's wife (a squaw) was constantly hunting the mountains over for berries and snaring grouse. They saw Mr. Moberly somewhere near Carnes Creek, bound eastward across the mountains. Saw Mr. Green above "Death Rapids," bound to look at the old horse trail leading back to Shuswap. Mr. Ladner had visited the Columbia, seen the miners, heard their report, and had returned to Shuswap after some cattle and provisions. Government was making a rough trail between Shuswap Lake and Columbia River or Carnes Creek.

Mr. Abrams, merchant, with a big freight boat and four men, and eight men in a canoe arrived at Sheppard on 1st September, 5 days coming down. The canoe lost one man coming through the canyon. The canoe got into bad water, struck a rock, when the man—T. W. Cantrail, of Wallla Walla—sprang into the river, swam a short distance towards land and sank.

One shaft, down 60 feet, struck bed-rock shelving—driving in horizontally and sinking still deeper. One company at work, at or above the canyon, turning the creek. Mr. Clughston and others working the surface ground with rockers—wages $4 to $6. About 80 men on all the creeks—would remain and prospect about a month longer, were anxious to see the shaft bottomed, and the result of the fluming above the canyon. Miners somewhat down on their luck. Provisions, "Flour straight."

The miners all speak in the highest terms of the merchants, Messrs. Clughston & Abrams, who have credited out all their provisions and exerted themselves in every way to assist prospecting. Carnes Creek gold is in the shape of cucumber seed, coarse and dark colored. French Creek gold is rough, flat and very bright. Several Chinese boats were met on the way going up the Lakes.

Messrs. Turnbull & Herman, Government Surveyors, who had been to Shepherd after provisions, were seen last Sunday or Monday 2 miles above the upper lake. The Indians whom they had brought from Okanagan had returned some time ago. Since then they have been travelling with "Gregoires," the Chief of the Lakes Indians. Last Sunday, being anxious to get along, (the Indians wouldn't work on Sunday,) they attempted to work a bark canoe by themselves, ran her into a snag, and in attempting to save the things ran their feet through the bottom of the canoe—saved all except some blankets. They are now awaiting the arrival of the Indians, into whose hands they will again have to consign themselves.

"Jolly Jack," *alias* John Thornton, formerly of Langley, has employed several men, and is busy wing-damming the Salmon River, 20 miles from Shepherd—was rigging pumps and sluiceboxes. His prospects are excellent, will start work in a few days—gold coarse and bright.

A great number of Chinese on bars of Columbia, on Salmon River, &c. The last canoe picked up and brought down one poor little devil of a man who had come across from Shuswap. He was wending his way down along the Columbia, and had one little cake of bread left when found. Robinson (who wrote to the papers) came down by first canoe. He has had a bad leg and is still laid up. The chances are that his next report will be anything but favorable!!

The steamer (if not stopped on account of discouraging news from above) being built at Colville will make a trial trip in October."

[If the writer of the above alludes to Mr. Wm. Robertson, late of Yale, which we more than suspect he does, he is quite in error in saying that he "wrote to the papers." Mr. Robertson wrote to Mr. McLardy in Yale, who placed two of the letters at our disposal, and from which we published extracts.—ED.]

Later from Cariboo.

By the arrival of the *Onward* on Monday evening we have files of the *Cariboo Sentinel* of the 2nd inst., from which we glean the following information: On the 2nd inst. Louis Reck, a young German, was killed in one of the hill claims above the canyon, on Williams Creek, by the falling of a bank which he was engaged in undermining. A man who was working with him was also covered up, but escaped with some injury.—A prize fight came off at Barkerville on the 30th ult. between two Welshmen. After fighting 29 rounds it was declared "a draw," and the parties shook hands and parted.—A miner named Sprall met with an accident on the 30th ult. by falling down the shaft of the Hart Claim. His ancle was injured, but not seriously. —The Rev. A. C. Garrett delivered a temperance lecture, on the evening of the 1st inst., in aid of the funds of the Reading Room, Mr. J. S. Thompson in the chair. The lecture is described as a very able one. Mr. Garrett was to leave for Victoria on Monday the 4th.

MARKET REPORT.

The market here is stocked to repletion with sufficient goods of all kinds to last twice the present population for two years. Of flour alone there is over 175,000 lbs. on hand, and about the same amount on the road up. There is not the least probability of an advance in price, seeing that more than a million pounds of flour will be made in the country this year from home grown wheat. Next year we anticipate the price of flour will be less than 20c. per lb. by retail in Cariboo. Vegetables of all kinds are brought in daily from Keithleys Creek and the Mouth of Quesnel. They are selling at moderate prices. A gardener on the lower part of Williams Creek has cultivated two acres of fine Swede turnips this season, which he will dispose of during the winter. There is no change in the prices current this week to note.

MINING INTELLIGENCE.

WILLIAMS CREEK.

The present week has been a favorable one for working the claims on this creek, from the water being abundant to drive the wheels. The Sheepskin Co. have got down to bed-rock at a depth of 52 feet, and have obtained a prospect of $10 to the pan. This is the only new strike on this creek we have to record. The claims generally have not varied much from previous report.

CONKLIN GULCH.

The Reid Co. divided their first dividend amongst the shareholders last week. We have been favored with the following statement of the the amount expended on this claim in prospecting it since it was first taken up:

In 1863,	- -	$ 6,587.87
1864,	- -	33,269.72
1865,	- -	14,242.85
Total,		$54,100.44

The Ericson Co. made $400 more than expenses last week.—The Saw Mill Co., will have about 150 ozs., this week.—The New Zealand Co. have commenced to drift from their shaft.—The Good as Any Claim has been laid over; it will be prospected during the winter.—The Britannia Co. are taking out about expenses.

STOUTS GULCH.

The claims on this gulch generally are doing well. Nearly all are making wages, and some are paying dividends. The Alturas Co. took out a nice nugget weighing 6 ozs. during the week.

BURNES CREEK.

We stated last week that there was a good deal of excitement about this creek, which had attracted a considerable population to it. During the present week the excitement has not abated, and everything promises well for the future of the creek. The two companies that we mentioned as having struck good prospects have been taking out excellent pay, and there are about ten new companies sinking shafts. In the course of another week the bed-rock will be reached by several prospecting companies, and the richness of the locality thoroughly tested. A number of miners have left Williams Creek during the week to take up claims.

LOWHEE CREEK.

The claims on this creek are generally doing about the same as reported last week. The Washburn Co. have not completed their machinery.—The Foley and Easton Claim is paying over wages.—The Chittenden Co. are taking out pretty good pay.—The Sage Miller Co. have commenced work.—The Moorehead Co. are working, but not making much.—The new ditch is nearly completed to Lowhee; it will enable several companies to set to work.

From Lillooet.

There had been no further report received from the Bridge River Expedition, but the return of Judge Elliott was daily expected. Two nuggets of gold weighing respectively 12 oz., and 20 oz., had been picked up on Bridge River, by two Chinamen, and brought to Lillooet. Very deep interest is felt in the result of the expedition in the Bridge River country generally. The Fraser had swollen to unusual dimensions from heavy rains. It rose over 20 feet at Lillooet, The Lillooet and other streams had also risen very much.

THE WIRTZ TRIAL.—The allusion to this trial in our telegraphic dispatch will hardly be intelligible to the general reader unaccompanied by the explanation that Wirtz is the keeper of the corral at Andersonville, in which the Union prisoners were subjected to such revolting and inhuman treatment. If the charges against Wirtz are fully substantiated, and he is hanged, the verdict of the civilized world will be "served him right."

A QUICK TRIP.—The *Marcella*, Capt. Moore, arrived from Puget Sound on Monday evening, having made the passage from Port Angelos to here in precisely *twenty-two hours!* She brought a full and general cargo.

BEATEN AGAIN.—At the rifle match on Saturday between the *Sutlej* Ten and the Victoria Ten the latter were beaten by *one point!* Try again, Victoria. Better luck next time.

CUSTOMS RECEIPTS for week ending Saturday, September 9th, 1865:—Duties, (import,) £1385 4 11; do. (export,) £29 2 9; harbor dues, £20 17; head money, £18 8; tonnage dues, £81 3 6. Total, £1534 16 2. Number of passengers entering at this port during same period, 92.

The Wharf Nuisance.

To the Editor of the British Columbian.

DEAR SIR,—Allow me to call your attention to a growing nuisance on steamer days, viz., the crowding occasioned by the admittance of the Indians on to the wharf on the arrival of the Victoria steamers. I would respectfully suggest to Mr. Holbrook that they should not be allowed to pass the gates, at either entrance, until all the passengers and cattle are landed. The former (particularly the ladies,) are subject to the greatest annoyance, and the latter will some day cause serious injury to the crowd if the frantic yells &c. they are greeted with by the Siwashes are not put a stop to.

A few remarks from you, sir, would, I doubt not, remedy the evil.

Yours faithfully,
LOOKER-ON.

[The subject to which "Looker-on" alludes is one which has frequently pressed itself upon our attention, but we have deferred taking it up owing to the difficulties with which it is surrounded. The public would hardly have a right to expect that the proprietor of the wharf would incur the expense of posting a sentry at each of the gates to exclude Indians; and even if he did the authority would be open to question. If the authorities would take the matter up it would be no very difficult matter for a policeman at each gate to prevent Indians from entering, upon the arrival of Victoria or other steamers from beyond seas. The evil complained of is one of sufficient magnitude to claim the attention of the authorities, and we trust the necessary steps will be taken to abate the nuisance.—ED.]

DIED.

At Kootenay, B. C., on the 11th July, 1865, of Mountain Fever, Robert Musgrove, a native of Georgia, U.S., and one of the earliest pioneers of British Columbia.

Idleness is the badge of Gentry, the bane of body and mind, the nurse of Naughtiness, the stepmother of Discipline, the chief author of all mischief, one of the seven deadly sins, the cushion upon which the Devil chiefly reposes, and a great cause not only of Melancholy, but of many other diseases; for the mind is naturally active, and if it be not occupied about some honest business, it rushes into Mischief, or sinks into Melancholy.

BURRARD INLET LUMBER MILLS.

S. P. MOODY & CO., - - - Proprietors,
New Westminster.

AGENTS IN VICTORIA:
PICKETT & CO., - - - Wharf-street.

THESE MILLS are prepared to furnish cargoes of FIR, SPRUCE and CEDAR LUMBER, Tongued and Grooved Flooring, Spars, Piles, Shingles, Laths and Pickets at the shortest notice.

The access to the Mills is up the Gulf of Georgia to English Bay: thence up the Inlet. The anchorage in the bay is safe in all weather. The Inlet is perfectly land-locked, with plenty of water at all times for the largest class vessels.

Vessels loading at these Mills will have every facility for loading. The quality of Lumber is superior to any on the Pacific Coast, and can be furnished to any length up to 80 feet. There is a deputy Collector at the Mills to enter and clear vessels.

A Lumber Yard has been opened on Front Street, New Westminster, where a complete assortment of choice lumber will be found.

For further particulars apply to Mr. W. B. Wilson, Columbia Street.

NOTICE TO MARINERS

ENTERING

FRASER RIVER.

ALL previous notices issued by the Harbour Master of British Columbia, having reference to the Sand Heads of Fraser River, are hereby rescinded.

The following directions are published for general information:

The Beacons carried away since last fall have been re-constructed, excepting the South Sand Head No. 1, and the following alterations and additions made. The Light Ship now building will be placed near to the South Sand Head, being substituted for No. 1 Beacon:

The Beacons are formed with clusters of piles, each Beacon having a distinguishing feature at the top of the piles, and being numbered consecutively from 2 to 10, irrespective of the Crib on the North Sand Head.

No. 2. BEACON, NORTH SAND HEAD—Placed in 1 foot at low water, ¼ a cable from the buoy in a N. W. direction, showing from a Southerly bearing a black diamond elevated on a pole 16 feet above the top of the piles.

A ¼ of a cable distant from No. 2 Beacon, farther on the Sand, is a loaded crib in an incomplete state at present; at high water spring tides it is awash, but at low water it looms like the hull of a small vessel. A pole 20 feet long with a black board at the top pointing to the Channel is secured to it. A permanent Sea Mark will be built upon it in the course of a few months, of which due notice shall be given.

No. 3. BEACON, NORTH SAND—In 6 feet at low water, shows black and white horizontal stripes both on the pole and beacon, and is situated about half-way between chequered and black buoys.

No. 4. BEACON, NORTH SAND—1 cable distant in a S. W. direction from black top buoy, is distinguished by a black triangle elevated on a white pole 16 feet above the piles, and placed in 2 feet at low water. The piles are white-washed.

No. 5. BEACON, NORTH SAND—On the spit 1½ cable from red top buoy (placed in 5 feet at low water). This beacon is remarkable from its leaning position and is readily distinguished by the red cask on a white pole above the piles, the tops of which are also white.

No. 6. BEACON, NORTH SAND—1 cable distant from white buoy in a Westerly direction, is placed in 7 feet at low water. On the top of the pole is a white triangle, the apex of which is on the lower part of the pole. This beacon forms a conspicuous object and must be appreciated, as it will guide Vessels in the Channel when entering and leaving the River. The beacon is all white.

No. 7. BEACON, SOUTH SAND—Is a black beacon placed in 6 feet at low water, having a St. Andrew's cross elevated on a pole 16 feet above the piles.

No. 8. BEACON, SOUTH SAND—A cable's length from No. 7, in 1 foot at low water. This Beacon is white, having a St. Andrew's cross on a pole as above described in No. 7. As these Beacons, No. 7 and 8, are intended as marks for crossing the Bar, they are hereafter alluded to as the x Beacons. This Beacon (No. 8) is not to be regarded in any way except to lead Vessels over the Bar in the deepest water. For Vessels of large draught the x Beacons will be found invaluable, as by taking care to "port" sufficiently soon, after passing the black top buoy, so as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water Spring Tides. In all other parts of the Channel much deeper water will be found. After the red top Beacon is brought in a line with the white Beacon (No. 6), the red top buoy may be with safety rounded, then steer in direction for the white buoy, and from thence to the Ball Beacon on Garry Point.

No. 9. BEACON, SOUTH SAND—On the edge of the bank, placed in 1 foot at low water, is nearest to the Mouth of the River, and distinguished by a black pole having at the top two black boards on two sides of the pole horizontal with each other. The tops of the piles are also black.

No. 10. BEACON—Is a land mark placed on Garry Point to indicate the Mouth of the River, which shows from every direction a large White Ball. The braces, 6 feet of the pole, and the tops of the piles are black. The lower part of the Beacon is white-washed.

All buoys on the North Sand, after entering the Channel with Vessels of large draught, should be passed close on the "port" hand. Caution is hereby given that the Beacons constructed on the Sand Heads are not intended as marks for the Navigable waters of the Channel but to indicate the locality of the several buoys.

The old white buoy has been removed and a red spar buoy placed on the spit of the middle Sand inside Garry Point, in 12 feet at low water, which must be past by Vessels Entering the River on the starboard hand.

By following the above directions Mariners will find the Channel well and clearly defined, and with ordinary care a perfect stranger may navigate his Vessel with safety into Fraser River.

JAMES COOPER,
Harbour Master

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action af purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiego-foot.	Lumbago.	Tumors
Corns (soft).	Piles.	Ulcers.
Cancers.	Rheumatism.	Wounds.
Chilblains.		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London: and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15
